

CATRA

'CATRA' is the first of the Lightwave fleet to start the trend of Shared Ownership. When friends Len and Janelle, and Alan and Corienne decide to go halves in the purchase of a new catamaran, they found themselves at the Lightwave Factory at Coomera, eyeing off our newly designed Lightwave 38'.

'CATRA' currently calls Lake Macquarie home, and will shortly start her migration North to attend the 'Lightwave Owners Regatta Cup Challenge' held in April on the Gold Coast. 'After the Lightwave Regatta, we will continue North to the Whitsundays where we will spend a few months exploring the islands with friends.', informs Janelle

The name 'CATRA' came about when Janelle had a 2am brainwave and decided that the term for four in French was Quatra, so they decided to place a catamaran influence on this and 'CATRA' was born. However, the other story behind the name is 'Corienne's Attempt To Retire Alan'!

'We get so many compliments from everybody who has seen her out sailing on the waterways. The openness of the saloon area really gives the impression that she is a big boat. People cannot believe how spacious a cat is inside until they actually come onboard. We are just so happy with everything about 'CATRA'

For more information on the Lightwave 'Shared Ownership' programme, contact Peter O'Brien at Lightwave Yachts on +61 7 5556 0030.
